THE PATHWAY® ULTRASOUND IMAGING SYSTEM FOR LUMBOPELVIC REHABILITATION

Investment Benefits:

Cost Effective

High resolution ultrasound imaging at a fraction of the cost.

Ease of Use

The PATHWAY® Ultrasound Imaging System has been designed for rehabilitative professionals, not sonographers. This difference reduces the learning curve from weeks to hours.

Online Training 24/7 - Included with Your Purchase

Extensive video and image library, helpful resources, and use of the EchoGen Portal.

Educational Opportunities

Interactive, remote learning, and hands-on satellite course options available!

Portable

The PATHWAY® Ultrasound Imaging System is software based. The system includes a tablet computer, and ultrasound transducer; creating a light-weight and convenient system for professionals on the go.

Innovate

Establish a competitive edge with real-time ultrasound imaging.

PATHWAY® Ultrasound Imaging System for Lumbopelvic Rehabilitation Testimonials

“The affordability, ease of use, and image quality of this system is going to revolutionize clinical practice by providing access to technology that was once limited to academic research.”

- Ramona C. Horton, MPT, DPT

“Portability is a huge benefit and probably my favorite. I take the entire system to work in my laptop bag and can move it from clinic to clinic very easily.” - Allison Ariail, PT, DPT, CLT-LANA, BCB-PMD, PRPC

“I have yet to arrive somewhere, be handed a new ultrasound unit, and be able to use it, not to mention teach with it after 10 minutes of turning it on.” - Gerard Greene, MSc (Manip Physio), MMACP, MCSP, PG Cert HEd, Harborne Physiotherapy and Acupuncture Clinic

What Industry Leaders Say About RUSI In Their Practice

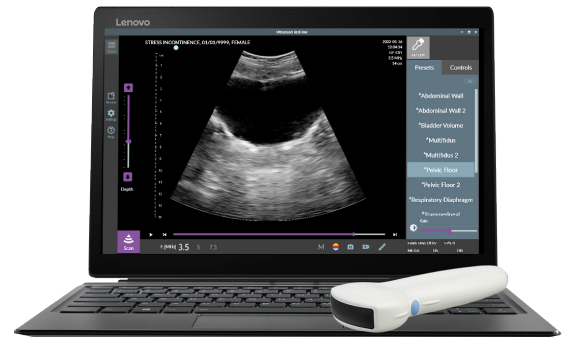

“Using this technology positions us as leading edge thinkers and medical influencers in our community. This has translated into new patient referrals through our outreach via social media, community lectures, and direct education to medical providers.”

- Sheree DiBiase, PT, ICLM, Lake City Physical Therapy

“The investment is valuable for the business in being able to offer a higher level of service - the ability to be more accurate in your diagnosis, and be able to show the client in real-time what is happening.” - Jenni Davies, APAM, MSportsPhys., GradDipPhys, Beaches Pelvic Physiotherapy

“It is all about marketing your entire practice and what you have to offer that is different from the clinic down the road. The US is one of the things that can set you apart, as an expert and provide the patient with additional information for an assessment and retraining.”

- Rebecca Meehan, PT, WCS, PYT, Embody Physiotherapy & Wellness
